

include/monte\_carlo  
/models/random\_rollout  
\_strategy.h

```
graph BT; A["examples/monte_carlo/tic_tac_toe/src/factories/tic_tac_toe_factory.cpp"] --> C["include/monte_carlo/models/random_rollout_strategy.h"]; B["src/monte_carlo/models/random_action_strategy.cpp"] --> C;
```

A diagram illustrating file dependencies. At the top is a gray box containing the header file path: `include/monte_carlo/models/random_rollout_strategy.h`. Below it are two white boxes. The left box contains the source file path: `examples/monte_carlo/tic_tac_toe/src/factories/tic_tac_toe_factory.cpp`. The right box contains the source file path: `src/monte_carlo/models/random_action_strategy.cpp`. Two blue arrows point from the bottom of each white box to the bottom of the gray box, indicating that both source files include the header file.

examples/monte\_carlo  
/tic\_tac\_toe/src/factories  
/tic\_tac\_toe\_factory.cpp

src/monte\_carlo/models  
/random\_action\_strategy.cpp
