

include/monte_carlo
/models/action.h

```
graph TD; A["include/monte_carlo  
/models/action.h"] --> B["memory"]; A --> C["ostream"];
```

The diagram illustrates a C++ header file's dependencies. A top box labeled 'include/monte_carlo/models/action.h' has two blue arrows pointing down to two separate boxes labeled 'memory' and 'ostream', indicating that the header file includes these two components.

memory
